Call for crowdfunding

We share because we care

Paris, 29-31 August 2016

Since ALE2011, ALE, the first agile european network event of practitioners, Agile and Lean mindset lovers and thinkers has been prolific every year. After Berlin, Barcelone, Bucharest, Krakow et Sofia, this year it happens in Paris. If you want to be part of the agile mindset continuous improvement, join us.

Agile has always been about making a better world for people. ALE is a place where people come with various problems to solve, questions to ask and ideas to share. Participants make new experiences and often ALE is a place where good ideas come to existence. Where many events invite speakers and program tracks by themes, ALE is a safe place where the

various formats focus how to create the energy so new ideas may easily be expressed.

As ALE is a safe place where you can step out of your comfort zone so surprising ideas may emerge, we are proposing you to join us as a sponsor. This year there is no without a formal framework for sponsoring.

Great ideas emerge regardless of an organisation's size. We, organizers of ALE2016, believe that requesting to small organisations the same amount than to bigger ones would be unfair. Therefore, this year, we move forward the concept of sponsoring to a new format :

Everyone can be a sponsor, sponsorship is crowdfunded.

If you want to create a three days safe place where people could learn by sharing and testing, you are invited to sponsor ALE2016 , at the very extent that far as you can engage : yourself as an individual, as a group of thinkers, an organisation.

Please, be part of the continuous renew and help mingle great ideas, make of the european agile mindset thrive, contribute to ALE2016 crowdfunding.

You can either contribute on [our website "Crowd-sponsoring: support the event"](#) or use the wire transfer below.
